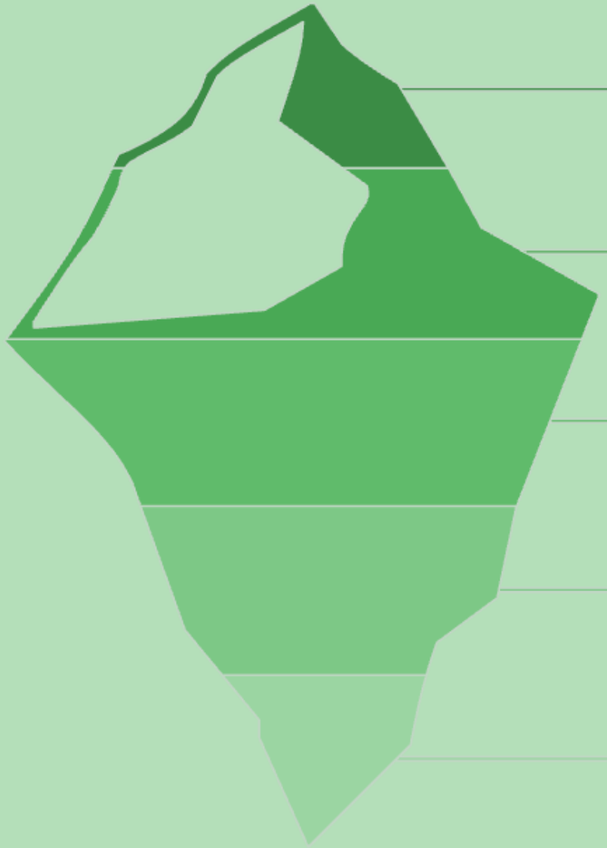
Career is not always linear

Vertical, Linear Career



Director of Engineering

Engineering Manager

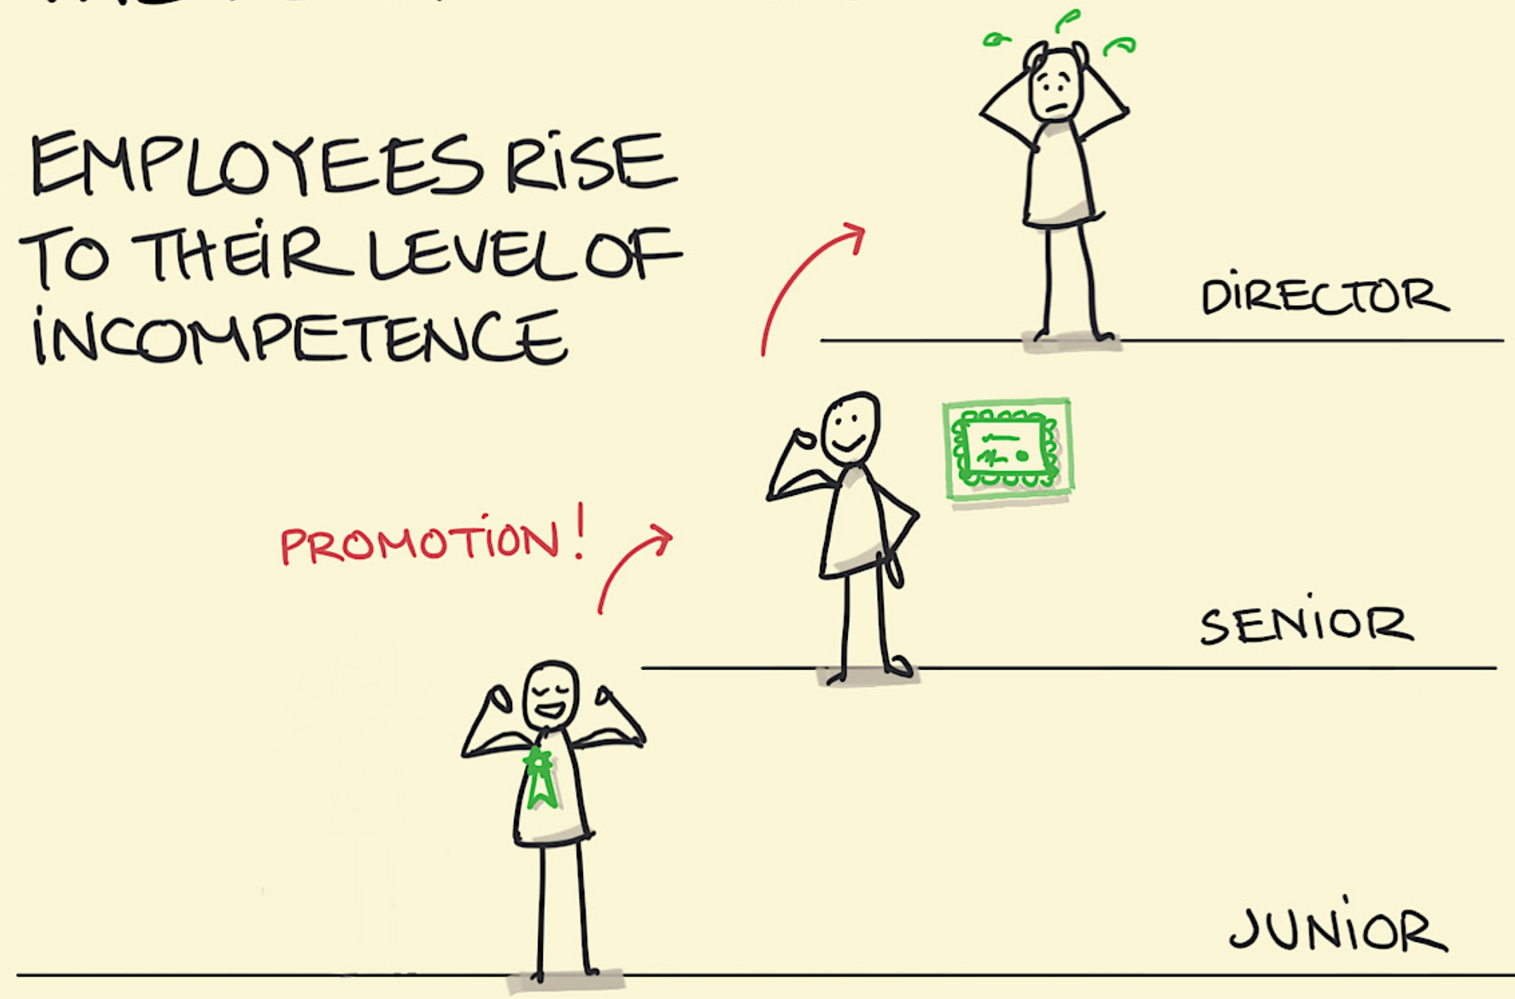
Mobile Team Lead

Mobile Engineer

Master of Software Engineering

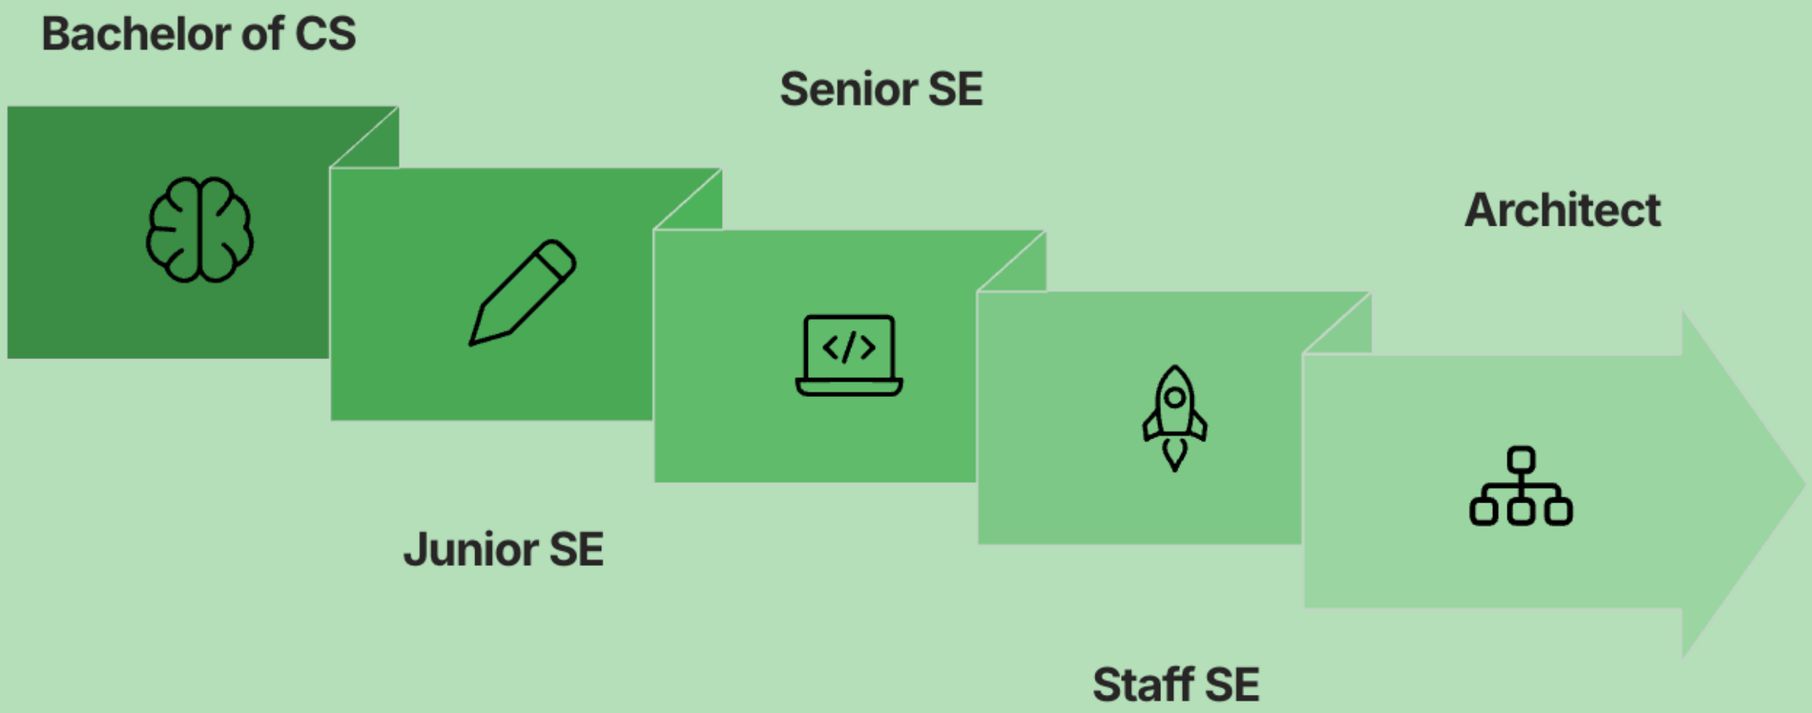
THE PETER PRINCIPLE

EMPLOYEES RISE TO THEIR LEVEL OF INCOMPETENCE

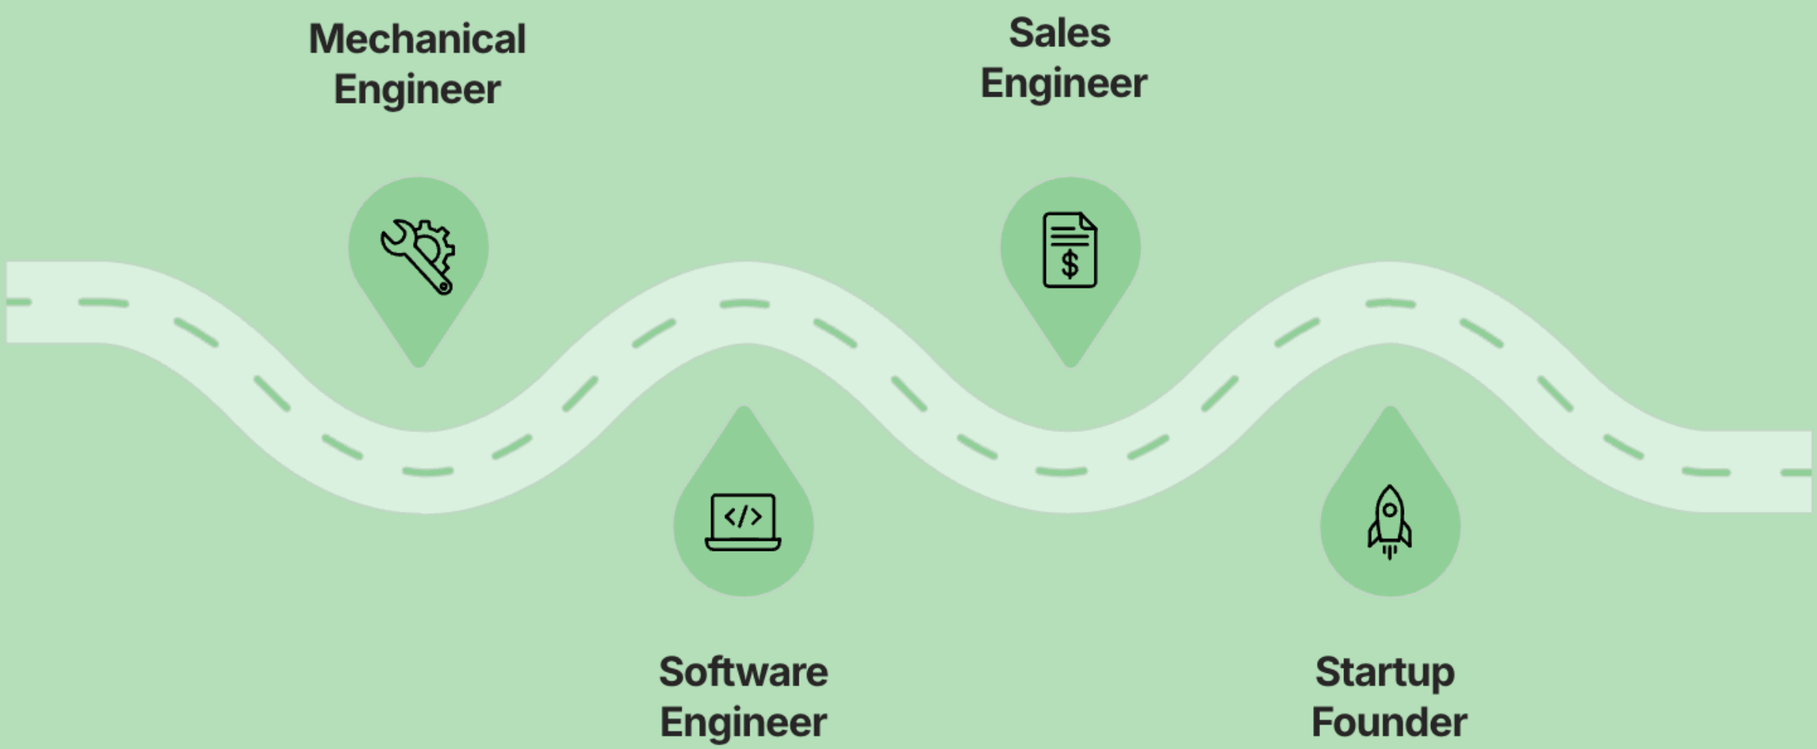


sketchplanations

Horizontal growth



Careers might be pretty different



So what?

1. Climbing the ladder isn’t the only growth path.
2. Lateral moves can accelerate learning and earning.
3. Each transition compounds your value.
4. At some moment - evaluate it.

Three key points

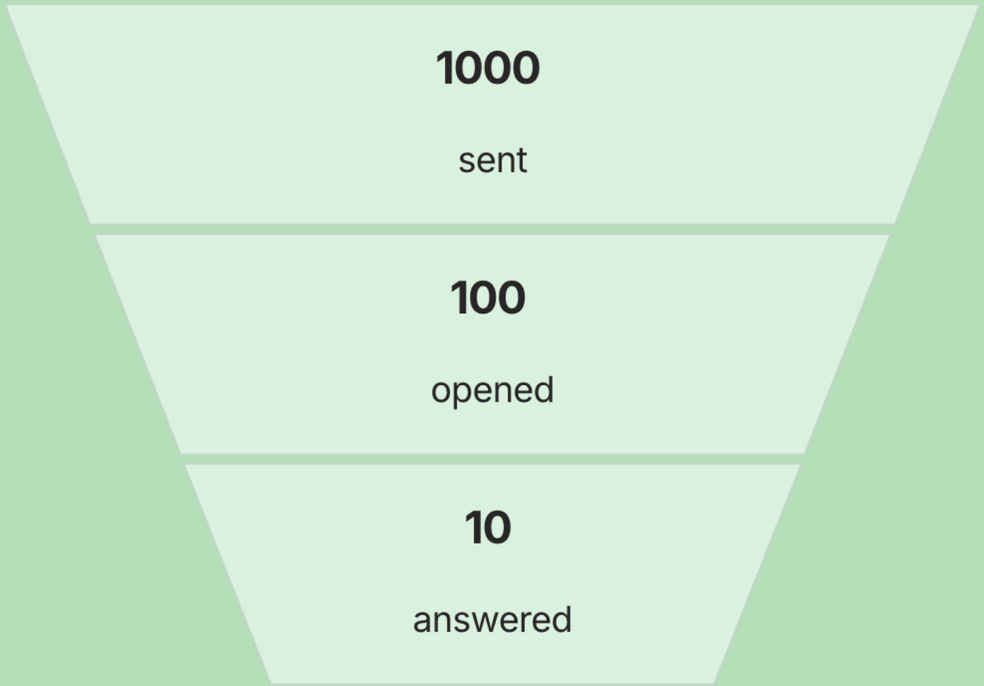
1. Career is not always linear
2. Be memorable
3. Use AI

Opening the first door

Be memorable

Spray and pray vs Targeted outreach

It's all about conversion



How to increase the conversion?

1. Talk about them, not you.
2. Perfect your Twit-length intro.
3. Multi-channel outreach and relationship.

Talk about them, not you.

1. Hi! I'm Alex. I'm a graduate student and I'm looking forward to learn from you.
2. Hi! I'm Alex. I saw your "Adventurer" 3d printer became 10% more precise, that's cool! I decreased printing waste by 15% in my Final Project and I believe the same approach can be applied to "Adventurer".

Perfect your Twit-length intro

1. “I help [target] achieve [benefit].”
2. “I help [target] achieve [benefit] without [pain].”
3. "I’m Alex. I build fast prototypes that make manufacturing lines smoother."
4. “I'm Robin. I build tiny robots that move like animals to explore places humans can’t.”

Multi-channel outreach

1. Don't just send a resume
2. Find the decision makers
3. Research info about the company and the role
4. Send email(s)
5. Connect on LinkedIn
6. Follow on Twitter
7. Don't become a stalker 😅

Three key points

1. Career is not always linear
2. Be memorable
3. Use AI

Use AI

Gemini

1. Study mode
2. Quick chats
3. Company info collection

Example: Company research

Provide a focused overview covering:
Company Mission & Core Problem:
- What problem does this company solve and for whom?
- What is their main mission or value proposition?
Recent Developments & News:
- Any significant recent news, pivots, funding, product launches, or strategic changes in the last 12-18 months?
Outreach Essentials:
- Key Terminology: What specific phrases, buzzwords, or language do they use to describe themselves?
...

Google Gemini:
Free Pro Plan for Students.

Free for 1 year, then $26.99 CAD/month. Get unlimited chats, image uploads, and quiz generations with more access to our 2.5 Pro model, Deep Research, and Audio Overviews, plus 2 TB of storage. Just for Students, 18+. Offer ends December 9, 2025. User restrictions apply.

Credit Card Insurances

4 sources

The provided sources primarily consist of **insurance certificates and credit card agreements** detailing various benefits, terms, and conditions, primarily from Canadian financial institutions like **BMO, TD, and Tangerine**. These documents outline comprehensive **travel-related insurance coverages** such as emergency medical, trip cancellation, and collision/loss damage waivers for rental cars, often tied to holding a specific credit card. Furthermore, they specify **general cardholder obligations** like safeguarding PINs, unauthorized use liability, and the processes for making payments and filing complaints. One source also includes details on **insurance payment methods** in Russian, noting a preference for using Tinkoff Bank
